

SIGN PRO BANNER CARE GUIDE

TAKING CARE OF YOUR BANNER

Congratulations on your Banner purchase!

Your Banner was produced with high-quality inks and vinyls.

- For a digitally printed banner - always roll your banner with the design to the inside.
- For a cut vinyl banner - always roll your banner with the design to the outside.
- Keep banner away from solvents such as paint thinner, acetone, alcohol, gasoline, etc.
- Do not use harsh substances like chemical cleaners or scrubber sponges on banner.
- Clean with a soft, damp rag after each use.
- Make sure banner is completely dry before you roll it up. Do not store when wet or damp.
- Always roll the banner for storage. **Never fold the banner!!**
- Never use a rubber band to secure the banner roll as this will cause creases.
